PLAN

The Roadshow – coming to a town near you!

We are on the road during March, visiting towns and settlements around the region to learn about your current issues, and aspirations for the future. How can our communities flourish? How can we develop a plan which will support vibrant and resilient communities?

We need your help!

Check out the itinerary and come along and talk to us. Talking together helps us understand what is important to you as well as helping you get a handle on what we are doing. And don't forget to encourage others in your community to come too.

We look forward to seeing you soon.
