SCHED4 - SCHEDULE OF SIGNIFICANT NATURAL AREAS	HOC - 093	Support in part	This now privately owned and freehold property has been progressively purchased by the Dudley & Barrett families since 1915, through 3 generations. Family members have owned and worked this land through world wars, the depression and many other historically significant times. The land has previously been utilised for farming, forestry and mining. In this owners' 88 years, the property has been significantly razed by fire twice. The area designated as HOC-093 SNA has previously been utilised as a cattle grazing block, but this has not continued to recent times and as such the submitter acknowledges the area could be redesignated through this process. However, the submitter does NOT agree to any further State sponsored/instigated land reclassification of his privately owned property. The submitter suggests redesignation of this type will significantly disadvantage current and future landowners of the block through land value and land utilisation decreases. The submitter (or a person on behalf of) wishes to speak to this process/hearing.	Agree with the redesignation of area identified as HOC-093 as SNA under this plan. However, this agreement subject to confirmation no further land designation of this type is attributed to any other land owned by the submitter.
