## PART 1 – INTRODUCTION AND GENERAL PROVISIONS

## **Definitions**

Plan	Support/Oppose	Reasons	Decision Sought
Provision			
Intensive Indoor Primary Production	Oppose in part	We believe that this definition could inadvertently capture herd homes and wintering barns (where the primary production activity principally otherwise occurs in an outdoor environment). We believe this should be amended so as to be clear that the use of herd homes and wintering barns is not included within the definition of Intensive Indoor Primary Production.	Amend as follows: <i>Means primary</i> <i>production activities</i> <i>that principally occur</i> <i>within buildings and</i> <i>involve growing fungi,</i> <i>or keeping or rearing</i> <i>livestock (excluding</i> <i>calf-rearing for a</i> <i>specified time period)</i> <i>or poultry.</i> <u>The use of</u> <u>herd homes and</u> <u>wintering barns where</u> <u>the primary production</u> <u>activity principally</u> <u>otherwise occurs in an</u> <u>outdoor environment is</u> <u>not included in this</u> <u>definition.</u>
New definition	-	We operate industrial activities from our property covered by SASM14. We believe that there needs to be a clear definition for "offensive industries" as it is listed in SASM – P11.	Develop a definition for "offensive industries".
New definition		We operate industrial activities from our property covered by SASM14. We believe that there needs to be a clear definition for "hazardous facilities" as it is listed in SASM – P11 and SASM – R17.	Develop a definition for "hazardous facilities".

Provision			
Provision New objective	-	Similarly to NH – O4, the role that protective structures play in natural hazard mitigation needs to be recognised in the Natural Hazards Objectives.	Add a new objective: <i>To ensure the role of</i> <i>hazard mitigation</i> <i>played by protectives</i> <i>structures and works</i> <i>that minimise impacts of</i> <i>hazards including rock</i> <i>walls and stopbanks is</i> <i>recognised and</i>
NH – P10	Oppose in part	The wording of this policy is too restrictive and precludes a landowner seeking other expert input or utilising solutions where the hazard could be substantially mitigated using technical solutions.	<i>protected.</i> Include wording that allows technical solutions or differing expert opinion to support resource consent applications for development. The wording of NH – P11 is more appropriate for severe overlays than the current wording. Delete "and there is significant public or environmental benefit from doing so".
NH – P11	Support	We support this provision.	Retain as notified.
NH – P12	Oppose in part.	This policy is very restrictive.	Retain point b. Delete point g.

NH – R38	Oppose in part	Two and five years is an insufficient length of time for reconstruction/replacement and there is no activity status where compliance is not achieved.	Amend rule so that there is a ten year period within which lawfully established buildings can be reconstructed/replaced in all overlays or delete time limit and if compliance is not achieved, this should be a Discretionary Activity.
NH – R39	Support	We support this rule.	Retain as notified.
NH – R40	Oppose in part	Point two in this rule is too restrictive.	Delete point 2.
NH – R41	Oppose in part	The activity status when compliance is not achieved within the Coastal Severe Overlay is too restrictive.	Amend status when compliance is not achieved to Discretionary for both Coastal Alert and Coastal Severe Overlays.
NH – R42	Oppose in part	The activity status when compliance is not achieved within the Coastal Severe Overlay is too restrictive.	Amend status when compliance is not achieved to Discretionary for both Coastal Alert and Coastal Severe Overlays.
NH – R43	Support	We support this rule.	Retain as notified.

#### **GENERAL FEEDBACK**

I support recognising the importance of mining to the West Coast. I support specifically providing for mineral extraction in zones across the three West Coast districts including within rural, open space and specific mineral extraction zones. I support the Mineral Extraction Zone remaining in the Plan and including future activities to help ensure economic opportunities on the West Coast into the future.
