PART 1 – INTRODUCTION AND GENERAL PROVISIONS

Definitions

Plan Provision	Support/Oppose	Reasons	Decision Sought
Intensive Indoor Primary Production	Oppose in part	We believe that this definition could inadvertently capture herd homes and wintering barns (where the primary production activity principally otherwise occurs in an outdoor environment). We believe this should be amended so as to be clear that the use of herd homes and wintering barns is not included within the definition of Intensive Indoor Primary Production.	Amend as follows: <i>Means primary production activities that principally occur within buildings and involve growing fungi, or keeping or rearing livestock (excluding calf-rearing for a specified time period) or poultry. <u>The use of herd homes and wintering barns where the primary production activity principally otherwise occurs in an outdoor environment is not included in this definition.</u></i>
New definition	-	We operate industrial activities from our property covered by SASM14. We believe that there needs to be a clear definition for “offensive industries” as it is listed in SASM – P11.	Develop a definition for “offensive industries”.
New definition	-	We operate industrial activities from our property covered by SASM14. We believe that there needs to be a clear definition for “hazardous facilities” as it is listed in SASM – P11 and SASM – R17.	Develop a definition for “hazardous facilities”.

PART 2 – DISTRICT-WIDE MATTERS

HAZARDS AND RISKS

Natural Hazards

Plan Provision	Support/Oppose	Reasons	Decision Sought
New objective	-	Similarly to NH – O4, the role that protective structures play in natural hazard mitigation needs to be recognised in the Natural Hazards Objectives.	Add a new objective: <i>To ensure the role of hazard mitigation played by protectives structures and works that minimise impacts of hazards including rock walls and stopbanks is recognised and protected.</i>
NH – P10	Oppose in part	The wording of this policy is too restrictive and precludes a landowner seeking other expert input or utilising solutions where the hazard could be substantially mitigated using technical solutions.	Include wording that allows technical solutions or differing expert opinion to support resource consent applications for development. The wording of NH – P11 is more appropriate for severe overlays than the current wording. <i>Delete “and there is significant public or environmental benefit from doing so”.</i>
NH – P11	Support	We support this provision.	Retain as notified.
NH – P12	Oppose in part.	This policy is very restrictive.	Retain point b. Delete point g.
NH – R1	Oppose in part	Two and five years is an insufficient length of time for reconstruction/replacement.	Amend rule so that there is a ten year period within which lawfully established buildings can be reconstructed/replaced in all overlays or delete time limit.
NH – R8	Oppose in part	Point two in this rule is too	Delete point 2.

		restrictive.	
NH – R9	Oppose in part	The activity status when compliance is not achieved is too restrictive.	Amend status when compliance is not achieved to Discretionary.
NH – R12	Support	We support this rule.	Retain as notified.
NH – R13	Support	We support this rule.	Retain as notified.
NH – R14	Oppose.	Activity status is too restrictive.	Amend status to Discretionary.
NH – R38	Oppose in part	Two and five years is an insufficient length of time for reconstruction/replacement and there is no activity status where compliance is not achieved.	Amend rule so that there is a ten year period within which lawfully established buildings can be reconstructed/replaced in all overlays or delete time limit and if compliance is not achieved, this should be a Discretionary Activity.
NH – R39	Support	We support this rule.	Retain as notified.
NH – R40	Oppose in part	Point two in this rule is too restrictive.	Delete point 2.
NH – R41	Oppose in part	The activity status when compliance is not achieved within the Coastal Severe Overlay is too restrictive.	Amend status when compliance is not achieved to Discretionary for both Coastal Alert and Coastal Severe Overlays.
NH – R42	Oppose in part	The activity status when compliance is not achieved within the Coastal Severe Overlay is too restrictive.	Amend status when compliance is not achieved to Discretionary for both Coastal Alert and Coastal Severe Overlays.
NH – R43	Support	We support this rule.	Retain as notified.
NH – R44	Oppose	Activity status is too restrictive.	Amend status to Discretionary.

NATURAL ENVIRONMENTAL VALUES

Ecosystems and Indigenous Biodiversity

Plan Provision	Support/Oppose	Reasons	Decision Sought
ECO – P1	Support	We support that areas of significant indigenous vegetation and fauna habitat will be identified through the resource consent process until such time as district wide identification and mapping of significant natural areas is undertaken in an appropriate and consultative way and that a formal Plan Change occurs after that time.	Retain as notified.
ECO – P3	Support	We support this policy.	Retain as notified.
ECO – P4	Support	We support this policy.	Retain as notified.
ECO – P7	Oppose in part.	We support that this policy provides for consideration of “the appropriateness of any biodiversity offsetting or compensation in accordance with Policy 9 to offset any residual adverse effects that remain after avoiding, remedying and mitigating measures have been applied.”	Retain as notified.
ECO – P9	Support	We support this policy.	Retain as notified.

ECO – R1 ECO – R2	Oppose in part	We request that provision is made for low-level clearance for building sites within SNAs (including for future/not yet approved subdivisions). Providing for these types of living options can actually facilitate predator and pest management and control and is an important lifestyle option for the region.	Amend wording to provide for building sites.

SUBDIVISION

Subdivision

Plan Provision	Support/Oppose	Reasons	Decision Sought
SUB – P9	Oppose in part	Esplanade reserves and strips should not be required to be wider than 20m	Delete references to widths greater than 20m.
SUB – R5	Oppose in part	The activity status when compliance with point 6 (i.e. Coastal Severe Overlays etc) is appropriate. Where compliance is not achieved, status should be Discretionary.	Retain status when compliance with point 6 is not achieved to Discretionary.
		We oppose SASM14 and the rules associated with it.	Delete SASM 14 or provide exclusions for it in associated rules.
SUB – R6	Oppose in part	There are parts of this rule that are too restrictive.	Activity status where there is non-

SUB – R7/ ECO – R4	Oppose in part	The provision heading is unclear given SNAs are yet to be mapped.	Amend heading to read: <i>Subdivision to create allotment(s) of Land Containing a n Scheduled Area of Significant Indigenous Biodiversity.</i>
		Point 2 is not necessary and a SNA does not need to be within a single allotment.	Delete point 2.
		Point 3 should allow biodiversity offsetting or compensation etc. to be considered within this point.	Amend to: <i>The subdivision will not result in buildings or access ways being located within the identified area of significant indigenous biodiversity or the need for clearance of significant indigenous vegetation to provide for future access to any site <u>unless adverse effects can be addressed by alternative mitigation measures such as biodiversity offsetting and environmental compensation; and...</u></i>
SUB R6	Oppose in part	There are parts of this rule that are too restrictive. For example, if only part of a	Activity status where there is non-compliance with point

SUB – R13	Support	We support the provision.	Retain as notified.
SUB R15/ECO – R8	Oppose in part	Points 1 and 2 should be deleted from this rule as the escalation to Non-Complying is inappropriate and too restrictive.	Delete points 1 and 2. Activity status where there is non-compliance should be deleted as there should

SUB – R16	Oppose in part	Point 1 should be deleted from this rule as the escalation to Non-Complying is inappropriate and too restrictive.	Delete point 1. Activity status where there is non-compliance should be deleted as there should be no escalation to Non-Complying status.

GENERAL DISTRICT-WIDE MATTERS

Coastal Environment

Plan Provision	Support/Oppose	Reasons	Decision Sought
Coastal Environment Overlay	Oppose	This overlay is far too extensive. The extent inland that overlay covers is inappropriate and will unduly restrict development.	Amend overlay extent to exclude our properties.
CE – P5	Support	We support this provision.	Retain as notified.
CE – P6	Support	We support this provision.	Retain as notified.
CE – R1	Support	We support this provision.	Retain as notified.
CE – R4	Oppose in part	The maximum height limit of buildings and structures should be that specified for the particular zone.	Delete point 2. a. i. Delete point 2. a. iii.

		The gross ground floor area is too restrictive and should revert to zone rules.	
CE – R12	Support	We support this rule.	Retain as notified.
CE – R19	Support	We support this rule.	Retain as notified.

Noise

Plan Provision	Support/Oppose	Reasons	Decision Sought
NOISE – R3	Oppose in part	We believe that these acoustic insulation requirements should apply within 100m of our consented quarry to new buildings used for sensitive activities that built in the General Residential Zone at Alma Road if that proceeds to any extent.	Amend NOISE – R3 so that this rule includes that to include acoustic insulation requirements within 100m of our consented quarry for new buildings used for sensitive activities built at the proposed residential development at Alma Road.
NOISE – R5	Oppose	We are opposing this due to reverse sensitivity concerns regarding our quarry operations.	Amend to explicitly exclude consented quarrying operations and similar.

PART 3 – AREA SPECIFIC MATTERS

ZONES

General Residential Zone

Plan	Support/Oppose	Reasons	Decision Sought
-------------	-----------------------	----------------	------------------------

Provision			
Residential Zone	Support	We support that the properties owned by our family on Orowaiti Road and Brougham Street (through freehold or leasehold titles) are zoned residential (i.e. Lot 3 DP 18892, Pt Section 213 Square 141, Lot 2 DP 692, Lot 10 DP 1086, Lot 11 DP 1086, Lot 12 DP 1086 and Pt Lot 13 DP 1086).	Retain as notified.
General residential zone	Oppose in part	We oppose the entire enclave of General Residential Zoning at Alma Road. We believe this should be General Rural Zone or Rural Lifestyle Zone.	Amend General Residential Zoning in the Alma Road area to a lower density zone such as General Rural Zone or Rural Lifestyle Zone.

Settlement Zone

Plan Provision	Support/Oppose	Reasons	Decision Sought
Settlement Zone	Support	We support that 95 Snodgrass Road is zoned Settlement Zone (i.e. Section 1 SO 14107 and Section 14 Town of Orowaiti).	Retain as notified.

General Rural Zone

Plan Provision	Support/Oppose	Reasons	Decision Sought
General Rural Zone	Support	We support that the land we own at 107 Alma Road is zoned General Rural Zone (i.e. Lot 4 DP 15375, PT Lot 2 DP 7181, Section 1 SO 14701 and Section 2 SO 14701).	Retain as notified.

General Rural Zone	Support	We support that Lot 1 DP 17523 is zoned General Rural Zone (i.e. part of 103 Alma Road). Our quarry is important to our business and to the district. It would suffer from inevitable reverse sensitivity issues if adjacent land was zoned for urban/residential use. We support the proposed buffering areas to limit the likelihood of reverse sensitivity effects on our operation from surrounding land use and housing density changes.	Retain as notified.
General Rural Zone	Support	We support that the land between our quarry and Pakihi Road is zoned General Rural Zone (i.e. Lot 2 DP 404550, Lot 2 DP 418652 and Pt Section 24 Blk VII Kawatiri SD). Our quarry is important to our business and to the district. It would suffer from inevitable reverse sensitivity issues if adjacent land was zoned for urban/residential use. We support the proposed buffering areas to limit the likelihood of reverse sensitivity effects on our operation from surrounding land use and housing density changes. We believe that there is a potential natural hazard risk in this area due to overland flow that requires evaluation.	Retain as notified
General	Support	We support that the land that we	Retain as notified.

Rural Zone		own between Bulls Road and Bradshaws Road <u>north</u> of State Highway 67A is zoned General Rural Zone (i.e. Sections 26 and 27 Blk II Steeples SD).	
General Rural Zone	Oppose	We oppose that the land we own between Bulls Road and Bradshaws Road <u>south</u> of State Highway 67A is zoned General Rural Zone (i.e. Section 1 SO 14694, Part Section 2 Blk II Steeples SD, Section 3 Blk II Steeples SD, Section 4 Blk II Steeples SD, Section 5 Blk II Steeples SD, Section 42 Blk II Steeples SD and Section 71 Blk II Steeples SD). We submit that this should be zoned Rural Residential Precinct.	Amend to <u>Rural Residential Precinct.</u>

Commercial Zone

Plan Provision	Support/Oppose	Reasons	Decision Sought
Commercial Zone	Support	We support that Lot 4 DP 15375 and Lot 1 DP 15375 are zoned Commercial Zone (i.e. part of 103 Alma Road and 20 Gillows Dam Road). Our quarry is important to our business and to the district. It would suffer from inevitable reverse sensitivity issues if adjacent land was zoned for urban/residential use. We support the proposed buffering areas to limit the likelihood of reverse sensitivity effects on our operation from surrounding land use and housing density changes.	Retain as notified.

CE – O1-O2	Support	We support these objectives.	Retain as notified.
CE – O3	Support in part	The term “functional need” does not go far enough in recognising that some activities are required to operate in the coastal environment e.g. due to the location of mineral deposits.	Amend as follows: <i>To provide for activities which have a functional, technical, operational or locational need to locate in the coastal environment in such a way that the impacts on natural character, landscape, natural features, access and biodiversity values are minimised.</i>
CE – P1	Support	We support this provision.	Retain as notified.
CE – P4	Support in part.	We believe this policy needs amending.	Include a point c. that provides for activities

			which have a functional, technical, operational or locational need to locate in the coastal environment.

GENERAL FEEDBACK

I support recognising the importance of mining to the West Coast. I support specifically providing for mineral extraction in zones across the three West Coast districts including within rural, open space and specific mineral extraction zones. I support the Mineral Extraction Zone remaining in the Plan and including future activities to help ensure economic opportunities on the West Coast into the future.
