Mining can have a major impact on surrounding residents and the environment which should be given consideration and appropriate controls put in place if needed. If far less intrusive activities such as putting up a flagpole can require applying for a consent, so should mining.

Remove this rule. Mining in the rural zone should be in accord with GRUZ R25, or R32.

Schedule 10 is empty, making GRUZ R18 irrelevant. Therefore this rule should be removed.

Remove this rule. Mining in the rural zone should be in accord with GRUZ R25, or R32.

These impacts are also important.

Discretion should include transport of minerals from the site; design of earthworks; impact to scenery; rural amenity and erosion mitigation in addition to what is already listed. Consideration should be given to the cumulative impact of all activities.

I support the properties between Canoe Creek and Waiwhero Creek along the Paparoa side of the Coast Road being zoned as Rural Lifestyle. This matches what those of us who live here expect.

The proposed rules are too restrictive for rural lifestyle. We need our woodsheds, carports, and radio aerials. Buildings and structures are permitted if the maximum height of any building is 10m, and the site coverage does not exceed 10% of the site area or 1500sqm whichever is the greater. Remove the other restrictions from R5. Maximum area sizes should be left for the building code to determine. The TTPP should match the current Grey District Plan.

Mineral Extraction Zone Section

Mineral Extraction Zone	MINZ	Amend	MINZs are described as areas where there are discrete, long term mineral extraction activity currently authorised. There is no such authorisation for mining on the site identified as the Barrytown Mineral Extraction Zone. Mining resource consent was declined for this property 10-Feb-2022 due to its negative impacts. TTPP Planners acknowledged it was a mistake to have included this MINZ ("it is not a lawfully established activity") and recommended that it be removed 20 April 2022	Rezone the Barrytown Mineral Extraction Zone as General Rural.

Expand and change #3 and #4 in TRNS14 (Appendix One: Transport Performance Standards) to explicitly consider the cumulative effects of heavy mineral concentrate truck movements (or any other extraction-associated large bulk carrier vehicle movements) from mine site to port in relation to cumulative mining truck movements all the way to the port and the potential effects on businesses and communities en route.
