## Submission points

Plan section	Provision	Support/oppose	Reasons	Decision sought
[General]	[General]	Amend		<p>This plan is too big and complicated for the general public to understand and be able to comment on easily. A lot of people who have businesses etc have been hiring lawyers to help them submit on this plan, something the layperson cannot afford to do.</p> <p>There should be more protection for the layperson and perhaps independent groups set up to explain and submit on their behalf.</p> <p>My partner Sophia Allan has logged a detailed submission that we composed together that I also support.</p> <p>The TPP in general appears to have been constructed by and for industry in general and mining in particular. The planners have not always been listened to as some of the counselors have vested interests in these industries.</p> <p>This focus on mining and and heavy industry in general seems to come at the expense of the communities amenities, and already existing industries like tourism which is under represented in the TPP.</p> <p>The idea of the TPP was to streamline local government and this doesn't appear to have been achieved.</p>
