Te Tai o Poutini
PLAN
A combined district plan for the West Coast

My submission:

(Include whether you support or oppose the specific provisions or wish to have them amended, reasons for your views and the decision you seek from us).

My name is Mary Stewart. I own a small lifestyle block at 39 Maori Pt Road, Karamea. I do not support the current claim placed on my property and I would like the TTPP's sites and areas of significance removed from my property for the following reasons.

- 1- I have researched via a long standing Karamea person who has studied Maori hix for many many years regarding the Karamea area who has informed me that there is no evidence to support your claim. There is no evidenced or published documentation or literature, no physical evidence of any pa sites, burial grounds, artifacts, human bones/remains or in fact anything that supports your claim
- 2- Pre European settlement in this area was never settled by Maori. Maori Passed through this area from Golden Bay to Okarua on the greenstone trail and utilised an area to collect pippis from an historical pippi midden at ? the old wharf area. However this was not a permanent stop as Maori ate out all the pippis so it was no longer a viable food source. NO evidence of other food sources collected & consumed has been found.
- 3- It is well known that the mapped overlays of areas of significance have been incorrect which appears to be the case regarding my property and indeed the Karamea area.
- 4- The whole process in TTPP's methods and instigation of the plan is marred, and the communication with individuals has been appalling, distressful and with ~~little~~ inadequate information available to the public hence

My submission:

(Include whether you support or oppose the specific provisions or wish to have them amended, reasons for your views and the decision you seek from us).

5- The property I own has been bought & sold several times as a freehold unencumbered property with no mention of any clauses pertaining to significant historical sites or areas.

6- It is highly probable that prior to European settlement that the status of original makeup of my property would have been swamp, scrub and scrubby bushland that would not have supported a settlement site.
