Missing Submission points:	
ECO - P7 Support in Part The policy is supported in general, with the following amendments,	

<p>(1) The policy should be amended to be consistent with wording in the RPS.</p> <p>(2) A minor amendment is required to item "a." given the definition of critical infrastructure.</p> <p>(3) There is some ambiguity in regard to the term adjacent in item "d." given that the policy regard</p> <p>(1) Amend ECO-P7, "When managing the adverse effects of activities' in ... matters:"</p> <p>(2) Amend item a., "a. The necessity for ... To provide for energy activities and infrastructure, including critical infrastructure and renewable electricity generation;"</p> <p>(3) Amend item d. to remove "or adjacent to", "d. The cumulative effects of activities within any area of significant activities in SNA's and this should be removed.</p> <p>(4) Item "h." should relate to proposals for such matters as these may or may not be offered or required depending on the circumstances. indigenous vegetation or habitat."</p> <p>(4) Amend item h., "h. Any proposals for biodiversity offsetting or compensation in relation to residual adverse effects ...".</p>	
<p>ECO - R2 Amend Whilst the intent of the rule is clear and supported in part it is submitted that,</p> <p>(1) It is unclear how areas mapped in Schedule Four apply in the Coastal Environment of the Grey District. The matter should be clarified in regard to the identification of such sites in the Grey District given that the SNA areas identified in the Grey District have been adopted in the Plan.</p> <p>(2) Where Schedule Four does apply provide for activities within and outside those areas.</p> <p>(3) This rule should be located in the Coastal Environment to ensure integrated consideration of all relevant matters related to the Coastal Environment.</p> <p>(4) It is unclear whether this includes the Urban Area given commentary at the beginning of the plan advising that such areas are not included in the coastal environment when compared to the mapped coastal environment. This should be clarified in the rule.</p> <p>(5) Amend item "1.ii." to provide wording consistent with other provisions regarding energy activities.</p> <p>(6) Amend the area limit to refer to the work site given that there may be any number of activities occurring over a length of the coastal environment.</p>	

<p>(7) Provide an exception to area limits for maintaining existing disturbed areas and corridors in items “2.” and “3.”.</p> <p>(1) Confirm the function of Schedule Four in identifying significant natural areas in the Coastal Environment of the Grey District.</p> <p>(2) Relevant permitted rules for activities inside or outside Schedule Four areas in the Grey District Coastal are provided, including an opportunity to comment on such rules.</p> <p>(3) Relocate the rule to the Coastal Chapter.</p> <p>(4) Add an exception to the Rule Title, “Indigenous Vegetation Clearance ... (Note: Urban Areas are not being part of the Coastal Environment for the purpose of this rule.) or like effect.</p> <p>(5) Amend item 1.ii., "Operation, ..., and installation of new energy activities and infrastructure, including critical infrastructure and renewable electricity generation activities."</p> <p>(6) Amend the applicable area limit in item 2., "2. The extent of ... in area per work site ...".</p> <p>(7) Add an exception to items 2. & 3. for maintenance, "Except that these limits shall not apply to ongoing maintenance of existing disturbed or cleared areas for corridor management purposes."</p>	
<p>ASW - R4 Oppose in Part The permitted rules provide for a very limited range of structures as permitted activities. See the outcome sought under Permitted Activities above. (1) See the outcome sought under permitted activities above.</p>
