Hi, I could come in Friday and put in points for the track resource consent.

There may be survey information at home from years ago when Johnnie plotted points up the track. I'll look.

It seems the commissioners may exempt the area described in the consent but not lift the zoning (the contour line has already been moved uphill).

Regards

Neil Mouat

Hi Neil,

This is the plot of your block over a georectified image.

If we put this onto a plan sheet with legal description etc will that work for you?

Regards

Jan

Hi Neil,

Warren has extracted the LiDAR levels so hopefully you can find where the track is located.

Regards

Jan
