S190.536	Te Mana Ora (Community and Public Health) of the NPHS/ Te Whatu Ora	NOISE - R2	Oppose in part	Amend NOISE-R2 as follows: 1. Intermittent residential activities, use of lawn mowers, vehicles, machinery or equipment operated and maintained in accordance with the manufacture's specifications and used on an intermittent basis (e.g. spraying, harvesting, etc); ... 10. Any residential activity on the same site as a noise source being assessed; ... 12. Infrequent aircraft landing for rural production purposes on an intermittent basis, including aerial topdressing and helicopter movements; 13. Non-commercial motorised watercraft operating on the surface of waterbodies; ... 15. Impulsive sounds (such as hammering and bangs) and dog barking noise which are poorly assessed by reference to NZS 6802:2008 Acoustics Environmental Noise; 16. The noise is emitted from an audible bird scaring device between the hours of half an hour before sunrise and until half an hour after sunset, not used at a frequency of more than 12 events per hour, and generating less than 65 dB LAE for each event ; and 17. The noise is from a Temporary Activity where the temporary activity occurs between 7:00am and 10:00pm only, and if operating outside of these hours complies with the underlying noise standards of the zone. This does not include any amplified noise.	Accept in part

S228.007	Jackie and Bart Mathers and Gillman	NOISE - R3	Oppose	If NZTA and KiwiRail would not jointly support the provision of freely available and area specific data associated with noise and vibration, we submit in favour of a "no complaints" covenant approach to residential or rurally zoned new build activity within the setback limits provided to address perceived issues of reverse sensitivity. Even though Waka Kotahi don't support that approach (refer page 31 of their assessment attached), it is nonetheless a mitigation option that resolves the issues outlined in our submission. We have enclosed a document related to covenants of this nature as produced by the Quality Planning Resource (qualityplanning.org.nz).	Reject
S252.003	Deb Langridge	NOISE - R11	Amend	Amend the plan so that noisy activities have shorter working hours, 8am-5pm is more suitable if there are residents nearby who will be disturbed by this. ..Weekends and public holidays should be quiet otherwise they are not holidays or breaks are they? Reduce the noise limit from 55 dB to 45 dB. The noise limit should be taken at the boundary not a notional boundary,	Accept in part
