

FW: VARIATION 2: COASTAL NATURAL HAZARDS MAPPING - CALL FOR FURTHER SUBMISSIONS - WASTE OF TIME AND MONEY

2015 application to Local Government Commission asked for cost effective efficiency and unity of West Coast Councils, but you and lwi appointees continue to ignore us rate/tax payers and on your own agenda continuing to cause expense which is not ours. Refer to previous correspondence 8th October, it is your liability (and that of DIA/LGC) not ours AND our claim of right has been made of our placement in default "no confidence" Council/s and TTPP red carded = rates dispute due to irregularities, no service, lack of enforcing own consents RMA Act and lack of respect for Public Finance Act, poor asset management.

Yours faithfully

Rex Keenan
