Reasons

- The LIDAR data update overlays don't appear to take into account the elevation of the above

property prior to construction of the house.
For example the property is above the property directly behind it.

2. Unanswered Questions

a) the updated data gives no indication regarding technical information, for example whether the Coastal Hazard is Severe, Alert or Setback

b) When is the next LIDAR mapping likely to take place - 2 years, 10 years?
Can we again expect profound changes?

(Please feel free to use additional sheets)

Validity of Submissions

Please note that submissions may be struck out in whole or in part if authorities (including Council staff, Independent Commissioners or Legal authorities delegated jurisdiction with respect to such decision-making) deem any submission partially or entirely:

- Is frivolous or vexatious in its content;
- Discloses no reasonable or relevant case for a position taken;
- Contains offensive language; and/or
- Is supported only by material that *purports* to be independent expert evidence, but has in fact been prepared by a person who is not independent and/or does not have sufficient specialised knowledge or skill to give expert advice on the matter.
