Variation being  
submitted on: Variation 2 – Coastal Natural Hazards Mapping

My submission: I do not believe that the computer modelling being used with respect to this plan and variation to this plan can perform an accurate service to the interpreted threat of what is being constituted as hazardous. There has been no convincing scientific evidence presented to support the unfounded claims held by NIWA. I strongly disagree with this entire proposal.

I would like the  
following decision(s)  
to be made with  
respect to this  
Variation: Complete cancellation of the TTPP plan

Please indicate if you  
wish to speak to your  
submission: I do not wish to speak to my submission\*

If any others making  
similar submissions  
wish to be heard: No, I would prefer to present my own individual case
