Variation being
submitted on: Variation 2 – Coastal Natural Hazards Mapping

My submission: Karamea Aerodrome Inc. wishes to request the removal of the Alert
overlay from all Aerodrome related property, as the elevation is
uniform across the entire site/properties (28ft / 9m AMSL). The
current LIDAR data used for the planning process is inaccurate (as
stated by TTPP) and does not follow up the contour of the land.

I would like the
following decision(s)
to be made with
respect to this
Variation: Remove the Alert overlay from all Karamea Aerodrome related
property as the elevation is uniform across the entire site/properties
(28ft / 9m AMSL). It is well & truly not at risk of coastal erosion or
flooding.
