My submission: I would like to say that I object to the proposed TTP Plan as it affects my home and community in a large way. Living where I do, the Severe Overlay covers the majority if not all of the communities of Northern Buller. The evidence provided is not trustworthy no matter how you put it. The LIDAR data is not reliable as it does not consider local knowledge and there are no facts backing up sea level rises.

I would like the following decision(s) to be made with respect to this Variation: I would like those responsible to speak with locals, especially those that have lived in the area for decades and know the coast line better than some overpaid dodgy scientist that has never ventured to the West Coast. Use common sense, use local knowledge!

Please indicate if you wish to speak to your submission: I do not wish to speak to my submission – (please note that with this option you will receive less correspondence in relation to the hearings but you can keep up to date on the TTPP website)

If any others making similar submissions wish to be heard: Yes, I would consider presenting a joint case with them
