(Include whether you support or oppose the specific provisions or wish to have them amended, and the reasons for your views.)

I oppose the variation 2 to proposed TPP. I do not think the proposed plan applies to our property. We have a seawall which mitigates inundation and therefore significantly reduces hazard level. We have seawall resource consent for 30 years. Importantly, there has been no inundation in the last 30 years and prior. Also, our property

and seawall borders the estuary. Therefore, we are not next to open sea and there is no evidence of erosion to seawall. Also, beyond seawall and estuary land, there is a 6 metre high sand pit, which further mitigates risk of damage due to high waves.

Importantly, it is unclear how you arrived at current layers used to map the area. I believe that the current layer affecting my property is not accurate based on available information. Also, it is unclear how your method of modelling can accurately predict levels in 100 years in this area.

Given the significant impact that inaccurate mapping will have on insurance access and LIM reports, I consider it of high importance that above concerns are addressed before further steps are taken.
(Please feel free to use additional sheets)

I would like the following decision(s) to be made with respect to this Variation:

I would like to see a review of method of modelling and this information being provided to me and other individuals in same position. Karamea has a tightknit community and it is very concerning to see many locals very frightened about possible relocation. I believe that the community has a right to feeling heard and respected throughout this process.

All submitters have the opportunity to present their submission to Commissioners during the hearing process. Please indicate if you wish to speak to your submission

I wish to speak to my submission

I do not wish to speak to my submission

(please note that with this option you will not receive correspondence in relation to the hearings but you can keep up to date on the TTPP website)

If any others making similar submissions wish to be heard:

Yes, I would consider presenting a joint case with them

No, I would prefer to present my own individual case
