To The Registrar
Environment Court
Christchurch

1 Bathurst Resources Limited (**'Bathurst'**) and BT Mining Limited (**'BT'**) wish to be a party to an appeal by Manawa Energy Limited (**'Appellant'**) in relation to decisions on the Proposed Te Tai o Poutini Plan (**'TTPP'**) (Court reference: ENV-2025-CHC-000123).

2 Bathurst and BT:

a Are persons who have an interest in the proceedings that is greater than the interest of the general public. Bathurst and BT currently own and operate coal mines within the Buller District. The Stockton Mine is currently operative and two further mines, the Mt William North and Coalbrookdale mines, are proposed to be developed in the future by Bathurst and BT. The Appellant's relief includes amendments to provisions that relate to the operation and development of these mines.

b Made a submission (number S491) and further submission (number FS89) about the subject matter of the proceedings.

3 Bathurst and BT are not trade competitors for the purposes of section 308C or 308CA of the Act.

4 Bathurst and BT are interested in all of the proceedings including the provisions within the ENG Energy Chapter, the SASM Sites and Areas of Significance to Maori Chapter, the ECO Ecosystems and Indigenous Biodiversity Chapter, the NC Natural Character and Margins of Waterbodies Chapter and the NFL Natural Features and Landscapes Chapter.

5 Bathurst and BT generally support the Appellant's relief insofar as it is consistent with Bathurst and BT's appeal, submissions and further submissions and ensures the TTPP:

a Recognises the significance of the existing mining infrastructure and the mining and mineral resources on the West Coast and Buller Plateau to the local, regional, and national economies;

b Enables the existing and future coal mining of regionally and nationally significant coal deposits;

- c Will promote the sustainable management of the natural and physical resources in the West Coast, and will be consistent with Part 2 and other provisions of the Act;
 - d Will meet the reasonably foreseeable needs of future generations;
 - e Will enable the social, economic and cultural well-being of the people of the West Coast;
 - f Will give effect to the West Coast Regional Policy Statement; and
 - g Is the most appropriate way to achieve the objectives of the TTPP, in terms of section 32 of the Act.
- 6 Bathurst and BT agree to participate in mediation or other alternative dispute resolution of the proceedings.

Dated: 2 February 2026
