To
The Registrar
Environment Court
Christchurch

- 1 Bathurst Resources Limited (**'Bathurst'**) and BT Mining Limited (**'BT'**) wish to be a party to an appeal by Te Rūnanga o Ngāti Waewae, Te Rūnanga o Makaawhio and Te Rūnanga o Ngāi Tahu (**'Appellant'**) in relation to decisions on the Proposed Te Tai o Poutini Plan (**'TTPP'**) (Court reference: ENV-2025-CHC-000134).
- 2 Bathurst and BT:
 - a Are persons who have an interest in the proceedings that is greater than the interest of the general public. Bathurst and BT currently own and operate coal mines within the Buller District. The Stockton Mine is currently operative and two further mines, the Mt William North and Coalbrookdale mines, are proposed to be developed in the future by Bathurst and BT. The Appellant's relief includes amendments to provisions that relate to the operation and sdevelopment of these mines.
 - b Made submissions (number S491) and further submissions (number FS89) about the subject matter of the proceedings.
- 3 Bathurst and BT are not trade competitors for the purposes of section 308C or 308CA of the Resource Management Act 1991.
- 4 Bathurst and BT are interested in part of the proceedings.
- 5 The part of the proceedings that Bathurst and BT are interested in relate to providing for the operation and development of coal mining and ancillary activities.
- 6 Bathurst and BT are interested in the following particular provisions:
 - a BCZ-O2;
 - b BCZ-P4; and
 - c Any alternative wording, restructuring or other amendments as may be sought by the Appellant in order to address its reasons for appeal in respect of the provisions above.

- 7 Bathurst and BT oppose the Appellant's relief sought in relation to the Buller Coalfield Zone provisions amendments insofar as it conflicts with the outcomes sought in their own appeal.
- 8 Bathurst and BT's positions in relation to the above relief sought by the Appellant are to ensure that the TTPP:
 - a Recognises the significance of the existing mining infrastructure and the mining and mineral resources on the Buller Plateau to the local, regional, and national economies;
 - b Enables the existing and future coal mining of regionally and nationally significant coal deposits;
 - c Will promote sustainable management of the natural and physical resources in the West Coast, and be consistent with Part 2 and other provisions of the Act;
 - d Will meet the reasonably foreseeable needs of future generations;
 - e Will enable the social, economic and cultural well-being of the people of the West Coast;
 - f Will give effect to the West Coast Regional Policy Statement; and
 - g Is the most appropriate way to achieve the objectives of the TTP, in terms of section 32 of the Act.
- 9 Bathurst and BT agree to participate in mediation or other alternative dispute resolution of the proceedings.

Dated: 2 February 2026
